

The Brower Sisters Band release debut EP "Old Friends are New Strangers" on April 14th

"Two mermaid twin sisters on a quest to save their mermaid village, but first they must conquer life on land as The Brower Sisters Band." - Alix and Deary

FOR IMMEDIATE RELEASE:

(Date TBD) The Atlanta, Ga-based twin sister alt-rock band The Brower Sisters Band announce the release of their first single "Messed You Up (Skate Park)" on March 24th, 2023 followed by a full EP release on April 14th, 2023. A record release show will occur with details to be announced.

About The Brower Sisters Band:

Fifteen-year-old twins Alix and Deary began their musical journey at age 4, learning the rudiments on piano. By the 3rd

grade they began writing original material on guitar, ukulele, and drums; and from that moment began planning their careers. In the summer of 2022, they had the honor of playing an opening set for Tommy Stinson (The Replacements/Bash and Pop) at one of his shows in Atlanta.

"Old Friends Are New Strangers" is a collection of 5 songs sometimes based on chance interactions with the oddball characters that color East Atlanta Village (a place they've known since birth). On tracks such as "Like Strangers Do", the twins explore what it feels like to be friends with someone you hadn't seen in a while, only to realize that they've become someone else. The EP was conceived during the long and painful halt of social interaction caused by the pandemic. The songs are a preternaturally mature reckoning of two years in dystopian teen land USA. The Brower Sisters lay their emotions down and treat the listener to a portrait of two brave young women who decide to create their way out of the doldrums.

"Old Friends are New Strangers" was recorded, mixed, and mastered in East Atlanta Village with producer Peter Mavrogeorgis (The National, Boy Harsher, Sharon Van Etten, Triathlon, Alice Texas) at Dollhouse Studios in late 2022. The EP will stream on all platforms and there will be a limited edition of CD's as well.

More info to be released.
